PROJECTS

Ferry Reservation System

May 2025 – Aug 2025

Project Management, Business Analyst

- Extracted stakeholder requirements and mapped user workflows to migrate a primitive ferry company into a well-designed software by clear specifications, for streamlining manual processes, improving efficiency by 70%.
- Translated user stories into mock-ups, specifications, and flow charts to effectively communicate interface design and user journeys with the team and set timelines using Agile methodologies.
- Coordinated project activities through GitHub and Kanban workflows, enhancing transparency, task ownership, and team alignment for the development phase.

“Backstage” Concert Android Application

Oct 2025 – Dec 2025

Developer, Data Analyst

- Researched user needs for a more immersive "concert discovery experience" by integrating chat feature with friends, in the Ticketmaster application, improving user experience by 30%.
- Brainstormed and built polished UI components to enable users to save interests and access real-time data, integrated with Google Maps.

EXPERIENCE

Student Ambassador

Jan 2026 – Present

Simon Fraser University

Burnaby, BC

- Deliver presentations and facilitate recruitment workshops to potential students, supporting the university's outreach efforts, improving enrolment by 10%.
- Create digital content (Instagram reels) to feature student life, supporting organizational communication and program visibility on their official social media.

Teaching Assistant, CMPT 105W(Research) and CMPT 225(Coding)

Aug 2025 – Apr 2026

Simon Fraser University

Burnaby, BC

- Communicated suggestions about lab materials and course content to the professor, with a 90% acceptance rate for process improvements.
- Identified gaps in students' understanding and translated complex programming concepts into clear explanations, serving as a bridge between faculty and students.
- Collaborated with professor and fellow TAs with varying backgrounds, to coordinate grading activities and provide timely feedback to students, contributing to smooth educational experience for 2nd year students.

EXTRACURRICULARS

Google Developer Student Club, SFU

Jan 2026 – Apr 2026
